

SMART FASHION RECOMMENDATION

Fashion applications have seen tremendous growth and are now one of the most used programs in the e-commerce field. The needs of people are continuously evolving, creating room for innovation among the applications. Having an AI program that understands the algorithm of a specific application can be of great aid. We are implementing such a chat bot, which is fed with the knowledge of the application's algorithm and helps the user completely from finding their needs to processing the payment and initiating delivery.

1

Define your problem statement

Unavailability of chatbots that are interactive enough to navigate the user to do whatever they want. The amount of toil a user has to go through to look for a product they desire for. Need for a more User-friendly Interface. The main aim of the project is to develop a smart chat-bot that is able to understand the needs of the user and recommend products of desire.

Key rules of brainstorming

To run an smooth and productive session

Stay in topic.

Encourage wild ideas.

Defer judgment.

Listen to others.

Go for volume.

If possible, be visual.

2

Brainstorm

Write down any ideas that come to mind that address your problem

10 minutes

DINESH K

User Friendly Web application

Identify user preferences

GUNALAN S

High performance

Product personalization

Recommend required products

smart chat-bot

Interactive web application

Handle secure payments

SUTHARSAN S

Offers/Discount

Reduce user navigation

VIGNESH

High resolution images for each product

Real-time product recommendation based on user's navigation

Instant product results based on preferences

Secure authentication

Integration of intelligent chat-bot

Various preferences to be shown

3

Group ideas

Take turns sharing your ideas while clustering similar or related notes as you go. In the last 10 minutes, give each cluster a sentence-like label. If a cluster is bigger than six sticky notes, try and see if you and break it up into smaller sub-groups.

20 minutes

Group 1

Real-time product recommendation and its associated navigation

Integration of intelligent chat-bot

Offers/Discount

Handle secure payments

User Friendly Web application

Group 2

Real-time product recommendation and its associated navigation

High resolution images for each product

Reduce user navigation

Well defined product description and its available categories

TIP

Add customizable tags to sticky notes to make it easier to find, browse, organize, and categorize important ideas as themes within your mural.

4

Prioritize

Your team should all be on the same page about what's important moving forward. Place your ideas on this grid to determine which ideas are important and which are feasible.

20 minutes

Importance

If each of these tasks could get done without any difficulty or cost, which would have the most positive impact?

High resolution images for each product

Reduce user navigation

Well defined product description and its available categories

smart chat-bot

Instant product results based on preferences

User Friendly Web application

Handle secure payments

TIP

Participants can use their cursors to point at where sticky notes should go on the grid. The facilitator can confirm the spot by using the Laser pointer holding the H key on the keyboard.

Offers/Discount

Feasibility

Regardless of their importance, which tasks are more feasible than others? (Cost, time, effort, complexity, etc.)

After you collaborate

You can export the mural as an image or pdf to share with members of your company who might find it helpful.

Quick add-ons

Share the mural

Share a view link to the mural with stakeholders to keep them in the loop about the outcomes of the session.

Export the mural

Export a copy of the mural as a PNG or PDF to attach to emails, include in slides, or save in your drive.

Keep moving forward

Strategy blueprint

Define the components of a new idea or strategy.
